Comments:

Mr. Lessler,
Attached is a proposed amendment to the claims. These claims are found allowable. Support for the claims is found in Example 2 on p. 5 of the specification.

Please review and respond ASAP.

Thank you,

Marina Lamm

Cancel Claims 5 and 6.

Claim 9 (twice amended). A method of treating aging of the skin or scalp comprising topically applying to the skin or scalp a therapeutically effective amount of a composition consisting essentially of insulin, pancreatin and a sunscreensing agent selected from the group consisting of octyl methoxycinnamate, benzophenone-3 and mixture thereof, wherein said insulin is natural, synthetic, recombinant, human or animal-derived.

Claim 10 (amended). The method of Claim 9, wherein the concentration of insulin is at least 2 units of insulin per 100 g of the composition.

Claim 11 (unchanged). The method of Claim 10, wherein the composition is in the form of a solution or emulsion.

Claim 12 (amended). The method of Claim 10, wherein the concentration of insulin is 2 to 20 units of insulin per 100 g of the composition.

Claim 13 (unchanged). The method of Claim 12, wherein the composition is in the form of a solution or emulsion.

Claim 14 (amended). The method of Claim 9, wherein a concentration of insulin is at least 2 units of insulin per 100 g of the composition and wherein the composition is in the form of a solution or emulsion.

Cancel Claim 15.

Claim 16 (amended). The method of Claim 14, wherein the concentration of insulin is 2 to 20 units of insulin per 100 g of the composition.

Cancel Claim 17.
